Respected Friend-I had for several years been afflicted with Dyspepsia, and occasionally a General Debility. I accidentally tried thy medicine, Hoofland's German Bitters' in the first place upon a daughter, she having a severe spell of sickness. Thy Hoofland's German Bitters had such effect upon her general debility, that I was induced to try it myself. I then got a bottle. and used it according to the directions, and it relieved me more than anything I had before used, giving general tone and strength to the stomech and system. Last jungs by Medicated Inhalation, lately used in the Brompfall I had a very series spell of the Diarrhoea, which continued for some time. TONICS WONT DO!

They never did do more than give temporary relie and they never will. It is because they don't touch the cause of the disease. The cause of all ague and billi- at any store in the county. Trankful for past favors, ous diseases is the atmospherio poison called Miasma he hopes by strict attention to his our ness, and low or Malaris. Neutralize this poison by its natural antidote, and all disease caused by it disappears at once. -Rhode's Fever and Ague cure is this antidote to malaria, and moreover, it is a perfectly harmless medicipe The certificate of the celebrated chemist, J. R. Chilson, of New York, to this effect, is attached to every bottle therefore if it does no good it can do no harm, This is more than can be said of quinine, assenfe,

any tonic in existence, as their use is rumous to the prepared to execute work to the facty of any. Plain itution, and brings on Dumb Ague, which never allows a person to feel perfectly well for a single mo-ment. In illustration of these truths I annex some extraces from a lesser just received from a physician: GEORGETOWN, OHIE, March 17, 1856.

JAS. A. RHODES, Esq. Dear Sir. Yours of the 21 inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was great ly increased from the fact that a remedy had been intro sed which was growing in favor with the public, as being better than using quinine, - not knowing I presome that the remedy they used to escape taking qui nine, contained the Drug itself!

This remedy, (known as "Smith's Tonic,") would is variably BREAK an ague, but it did not cone it, as is would often return with renewed vigor. This one cirment of Spring and Summer Goods, which they intend comstance I deemed in your favor, if I could institute a test comparison between is and your Cure. The following is the result.

.Three persons took your "cure" all of which were cases of "Quotidian Intermittent Fever," of many weeks occasionally missing a shill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundaion of other and severes maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, bu after a period or two had empsed it would return.
"I shink there will be no difficulty now in giving to your "Cure" the advantage ground of any other reme dy now in use here, &s . &c.

WILLIAM BUCKNER M. D. RHODES' Fever and Ague Cure or Antidote to Mal aria, the only harmless remeily in existence, is equally cermin as a preventive, as a "cure." Take it when you feel the chills coming on and you will never have single one. JAS. A. RHODES, Proprietor.
